GRIP'S GRASP. ARMY BILL DEBATE

Fastens Its Deadly Clutch Upon Millions.

From East to West, North to South, Everywhere, Evidence of its Presence is Plainly Apparent. Phantom-like it swoops Down Upon its Victims, to some it Deals Death, to Others Something Worse—Shattered and Wrecked Nervous Systems.

LaGrippe is a much more dangerous disease than many have been led to suppose. In its first stages it will yield to proper treatment as readily as any ordinary disorder, but owing to its infectious character, innumerable microbes are deposited and its development into many serious complications is exceedingly rapid and destructive. It leaves the nervous system shattered and wrecked; saps the vitality and renders its victims easy prey to pneumonia, nervous prostration, heart disease, insanity, etc., which invariably prove fatal later on.

Dr. Miles' Restorative Nervine is the grip's most formidable foe,—it robs it of its terrors. It goes to the very root of the disease and promptly drives it out. It builds up the worn out tissues and fortifies the system against all depressing after effects.

Mr. J. M. Allison, 54 Tacoma Ave., Indianapolis, Ind., writes: "A severe attack of LaGrippe shattered my nervous system with such severity that at times I felt that I would go insane. I could not sleep, was restless and my condition was deplorable. I began to think that my case was hopeless, but hearing of Dr. Miles' Nervine I concluded to try it, and now I am satisfied that it saved my life. It brought me sleep and rest, steadied my nerves and promptly restored my health. I have never experienced any AFTER EFFECTS and to Dr. Miles' Restorative Nervine I owe my present good health."

All druggists are authorized to sell Dr. Miles' Nervine on a guarantee that first bottle benefits or money refunded. Be sure you get Dr. Miles' Restorative Nervine. Write us about your troubles and ailments and we will give you the honest advice of a trained specialist absolutely free. Book on hand and letters sent free.

Amendments Adopted Giving the President Discretionary Power.

MUCH TIME WAS CONSUMED

By Representatives In Discussing the Increase of the Army and Annexing the Philippines—Johnson, Berry and Landis Take Part—Senator Carter of Montana an Expansionist.

Washington, Jan. 31.—The house put in a hard day's work on the army bill yesterday and when it adjourned 13 of the 20 pages had been completed. The committee amendments giving the president discretionary power to reduce the size of infantry companies and cavalry troops to 60 men each were adopted and also a series of amendments to reduce the officers of the staff to 331.

A substitute was adopted for the section providing for promotions which was designed to equalize promotions. A fight was made to reduce the age limit for officers to be appointed to the various staff departments from 50 to 30, but it failed.

An amendment was, however, adopted to require a mental as well as a physical examination for such appointees. Much of the time was occupied in short speeches on the general proposition to increase the army and annex the Philippines, and there were several lively personal controversies.

Mr. Johnson (Rep., Ind.) denounced what he termed the attempt to beg the issue and place the opponents of the bill in a false position. He was willing to vote for a bill to reorganize the army, but he was unwilling to vote for an army of 100,000, which he firmly believed was to be used when congress adjourned to annex foreign territory and foist upon the country and posterity a colonial policy. This bill was sanctioned by the president, he had no doubt, and the committee promise had been brought in to ally the opposition. Its effect was to mislead the people. Its purpose was and would be to create an army of 100,000.

Mr. Clark (Dem., Mo.), in a characteristic speech, declared that there was an epidemic of hysteria in the house, and that a member not getting the malady could not get a hearing. The Democrats had been in favor of a war to free a people; the Republicans were now anxious for a war to enslave a people. The Republicans jeered when he drew a picture of the militarism of the future.

Mr. Berry (Dem., Ky.) announced himself, amid an outbreak of applause on the Republican side, in favor of the retention of every foot of territory we had acquired as a result of the war with Spain.

"But I want to say, right here," continued Mr. Berry, "that I never want to see the Philippines represented on this floor."

"What would you do with them?" inquired Mr. Maguire (Dem., Cal.) "I would keep them under our control and protection, as we will Cuba, until they are able to take care of themselves."

Mr. Berry held aloft an long list of names which he said were those of men who had obtained appointments in the army because of the influence of grandfathers or fathers or uncles or aunts. As a Democrat he endorsed the action of the peace commission, he said, and he believed it was the duty of the United States to uphold the treaty; uphold it against Aguinaldo in the Philippines as we upheld it against the Spaniards in Cuba.

Mr. Landis (Rep., Ind.), speaking to the general question, contended that we should hold the Philippines in the inter-

est of human liberty. The voice of Aguinaldo, he declared, was no more the voice of liberty than the voice of Mr. Johnson was the voice of the people of Indiana.

Senate Proceedings.
An effort on the part of Mr. Allison to obtain consideration in the senate yesterday for the Indian appropriation bill precipitated a running debate which occupied fully two hours, when the senate went into executive session on the peace treaty.

Mr. Jones (Ark.), leading the opponents of the treaty, opened the debate by insisting that time should be taken for the discussion of pending resolutions having a collateral bearing upon the treaty before the treaty itself was disposed of.

The resolutions were made the text of a strong speech by Mr. Carter of Montana. Ordinarily calm and deliberate in his utterances, Mr. Carter spoke with impassioned earnestness, warning his colleagues that a favorable vote on any of the pending resolutions would be a vote of lack of confidence in the American people. He declared that the adoption of the resolutions would be a pledge to those who were defying the authority of this country in the Philippines, and that when the treaty had been ratified this government would inquire who in those islands were in rebellion against our authority and, if necessary to maintain our authority, we would whip them to death.

Beef Was All Right.
Washington, Jan. 31.—The commissary general's office has received a telegram from Lieutenant Colonel Abiel Smith at Havana concerning the beef shipped on the Michigan, for which a board of survey was ordered. The dispatch says: "Not a pound of beef condemned or thrown overboard, known to me. On the contrary, board called for by me pronounced beef fine. Quartermaster unloaded part of cargo contrary to my recommendation, but was stopped and ship held till meat could be properly handled. My calling the board was unnecessary, but deemed a wise precaution."

SENT TO THE SENATE
Papers on File In the State Department Bearing on Peace Treaty.

Washington, Jan. 31.—The president yesterday sent to the senate the correspondence in the state department bearing on the peace treaty. In submitting the papers the president sent a brief message saying that he transmitted them in accordance with the resolution. Much of the matter covered the same ground as that already published, but it was presented in the form in which the proceedings were outlined from day to day in the cable correspondence between Secretary Day, as the president's representative on the one hand, and Commissioner Day, as the representative of the American commissioners on the other.

The principal interest among the senators attached to the president's instructions to insist upon the cession of the island of Luzon, and after that in the decision to take the entire group of islands. This latter development appeared from the correspondence to be a growth, and the suggestion was made by the commissioners to the president as the result of occurrences at Paris after the arrival there of the commissioners. In his dispatch concerning Luzon, he said that there was but one alternative: The United States must either take the island and assume sovereignty or return it to Spain, and of the two courses he preferred the former.

The American commissioners appear to have been of one mind as to the wisdom of taking over all the Philippines with the exception of Senator Gray, who, notwithstanding he signed the treaty, held out to the last against the policy of acquiring these islands. In one notable dispatch he pleaded zealously against the policy as unpatriotic, un-American and inconsistent with probity and good statesmanship. After a brief debate the senate refused to print the correspondence.

AGONICILLO.

Makes Another Contribution to the Secretary of State's Waste Basket.

Washington, Jan. 31.—Sixto Lopez, secretary to Agoncillo, the Philippine representative here, called at the state department yesterday afternoon and left another communication addressed to the secretary of state protesting against the attitude of our government towards the Filipino "republic." The terms of the protest do not go as far as an ultimatum. The same fate awaits this communication as that which befell its predecessor; it will be diplomatically ignored.

Accompanying the communication is a long memorial addressed to the senate, containing a comprehensive argument in opposition to the ratification of the treaty, and which the envoy asks the president to send to that body. The letter of transmittal contains more than the mere request, but Agoncillo feels that he is bound by courtesy not to make it public until an opportunity is had by the state department officials to make a reply.

Arrangements Completed.
Washington, Jan. 31.—Colonel James M. Moore, assistant quartermaster general, has completed arrangements for bringing home the remains of the soldiers who lost their lives either from wounds or disease in Porto Rico and the province of Santiago, Cuba, in the recent war.

Wood Will Not Supercede Brooke.
Washington, Jan. 31.—Careful inquiry at the war department discloses the fact that the president has taken no action towards supplanting General Brooke by General Wood as governor general of Cuba, and there is also good ground for the statement that he has no such intention.

Retired Under the Ago Limit.
Washington, Jan. 31.—General Thad-

deus H. Stanton, paymaster general of the army, was retired yesterday in conformity with the age requirements of the service.

SMALL BOOK
Belonging to Miss Florence Taggart Found on Shore.

New Orleans, Jan. 31.—Captain Steve Sanghaletti of the lugger Maria Garcia, which arrived last night from down the river, brought a relic of the Paul Jones, a book belonging to Miss Florence Taggart, and has her name on the front.

The book is a small, paper-covered one, containing the constitution and by-laws of the Epistol Sigma fraternity of St. Mary's school at Knoxville, Ill., of which Miss Taggart and Miss Youm were members. The book was picked up by Frank Mallais on the shore near the saltworks. It will be sent to Mayor Taggart at Indianapolis.

TERRIFIC EXPLOSION

Four 80-Horse Power Boilers Give Way—Four Men Killed.

Shreveport, La., Jan. 31.—Last evening the four 80-horse power boilers of the Shreveport oilmills exploded with a terrific report. A brick building, 100 feet square, was torn to pieces and four men were killed, as follows: Engineer Lynch, Fireman Allen Hull, a negro named Hawkins, and an unknown man. Hawkins' body was recovered, but the others are still in the ruins.

Fourteen Families Rendered Homeless
Chicago, Jan. 31.—Fourteen families were rendered homeless last night by a fire which destroyed a 3-story tenement house in Fifty-second street. The fire plug in the vicinity of the building was frozen up and by the time the engines could obtain water the building was gone.

JURY DISCHARGED.

Failed to Agree in the Hanson Attempted Murder Case.

Rushville, Ind., Jan. 31.—The jury in the case of Jacob W. Hanson, charged with shooting Michael Ryan, with murderous intent, was discharged yesterday, having failed to agree. Hanson is postmaster at Sexton, and a prominent Republican politician.

He was chairman of the county committee in 1896, Ryan is a Democrat and the village blacksmith at Sexton. Political differences had much to do with the quarrel between the men. The jury was composed of eight Republicans, one silver Republican and three Democrats. Eight jurors voted for acquittal and four for conviction.

Were Freezing to Death.
Columbus, Ind., Jan. 31.—An old lady named Mrs. Mary Miller and her two sons were found freezing to death on the Pennsylvania railroad tracks, about two miles north of here. A tramp coming along the track discovered the trio. They were brought to this city and taken to the sheriff's residence, where lodging and comfort were given them. They claimed to be enroute to Indianapolis to seek employment.

Five Thousand Cases of Grip.
Adams, Ind., Jan. 31.—The grip is still raging here, fully three-fourths of the population have or have had it during the past few months. While there are now probably 5,000 cases in this (Decatur) county, there are but few in really a serious condition.

Robbed a Widow.
Goshen, Ind., Jan. 31.—A thief broke into the house of Mrs. Susan Cookingham, a widow, taking from her a quantity of silverware. The floors of the house were sprinkled with kerosene, and indications are that he was prepared to commit murder as well as arson.

Preacher Goes to Prison.
Columbus, Ind., Jan. 31.—Rev. Howard Williams, colored, was taken to the reformatory yesterday, having been convicted of stealing a \$2 ring from a parishioner. He said he took the ring that he might dispose of it for something to eat, being hungry.

PAY CUBAN SOLDIERS

Robert P. Porter Arranging For Disbursement of \$3,000,000.

GOMEZ'S FEELINGS HURT

Over What He Regards as American Neglect of His Authority—Some Doubt as to Whether He and Other Military Chiefs Will Accept Amount Proposed to Pay Troops.

Havana, Jan. 31.—President McKinley is understood to have empowered Robert P. Porter to arrange for the disbursement of \$3,000,000 among the Cuban soldiers. Mr. Porter will probably go with Senor Gonzales de Quesada to Remedios to meet General Maximo Gomez to persuade the Cuban commander-in-chief to disband his forces and to lend his influence to the United States military administration. Mr. Porter and Senor Quesada conferred last night with the governor general.

Dr. Castillo, who returned from Remedios yesterday after a two days' visit with General Gomez, says the latter is much hurt by what he regards as American neglect of his authority and rights, and is determined not to advise his soldiers to go home penniless. Gomez purposes coming into the neighborhood soon and will review the Cuban troops at Mariano, although the date has not yet been fixed. There is some doubt whether he and the other military chiefs will accept the \$3,000,000, no matter what other favorable conditions may be offered. Mr. Porter, who, it is understood, will act as the personal representative of President McKinley in the negotiations, has been directed to learn the best terms that can be made and is empowered to propose what it is hoped will be agreeable terms.

OBSTINATE BANK OFFICIAL

President of Banco Espanol May Be Imprisoned For Contempt.

Havana, Jan. 31.—Senor Galbis, president of the Banco Espanol, was notified yesterday by the special commission now investigating the finances of the municipality that he must appear before the commission today to answer interrogatories or must take the consequences of contempt, the penalty for recalcitrancy, in the mind of the commissioners, being imprisonment until he is willing to testify.

Major General Ludlow, governor of the department of Havana has invested the committee with the powers of a court and will sustain its action in punishing a refusal to testify. The Banco Espanol is so intimately connected with the finances of Havana, as a creditor to the amount of \$7,000,000 that the commission deems it necessary to get a complete accounting from the bank as to past transactions and a statement of what it is doing now with the city's market dues. The commission requested Senor Galbis to present himself for examination last Friday and again on Saturday, but he sent word that he was indisposed.

He was then asked to come before the commission yesterday, but he sent a message that he was physically unable to comply, in consequence of the exhaustion due to his bank labors. This reply was regarded as unsatisfactory and the peremptory notice for today was served upon him. If he now refuses the only thing that can prevent an arrest (so a member of the commission says) will be a medical certificate. Should this be produced the physicians who act for the commission will be sent to make an examination of Senor Galbis. Of course, if he obstinately refuses to testify, he will be dealt with for contempt and made an example.

No Cases of Sickness in the 161st.
Havana, Jan. 31.—Chief Surgeon Maus of the Seventh army corps, has asked General Fitzhugh Lee, its commander, to make the vaccination of every one in the province of Havana compulsory. One hundred and sixty-one cases of smallpox have been reported among the soldiers belonging to the One Hundred and Sixty-first Indiana regiment.

SHARKEY

Wins a Victory in Two Rounds at Philadelphia.

Philadelphia, Jan. 31.—Tom Sharkey put out Jack McCormick of this city in the second round of what was to have been a 6-round go at the Arena last night. The bout lasted as long as it did probably because the sailor wanted to give the great crowd present something for their money.

Sharkey decided to end the exhibition after a lively exchange in the opening of the second. He put in a left uppercut, sent right and left in turn to the jaw and brought the right up again to the same spot. McCormick went down and stayed the limit. When he got to his feet again Tom banged a right in the stomach and left on the jaw and the local man went out of business. The round lasted two minutes and 15 seconds.

Free Silver Senator.

Helena, Jan. 31.—United States Senator-elect William A. Clark is a free silver man and, although a Democrat, is a protectionist as far as raw material is concerned. Mr. Clark was asked to define his position on the financial question. "I stand," he said, "for the restoration of silver to its former status before its demonetization in 1873 and at the ratio of 16 to 1."

Twenty Children Drowned.

Koenigsburg, East Russia, Jan. 31.—Twenty children are reported to have been drowned by an ice disaster at the village of Warpuen-Borheim.

CARLISM

On the Wane In Spain—Don Lost His Opportunity.

London, Jan. 31.—The Madrid correspondent of The Times, in a letter reviewing the situation in Spain, says: "The prospects of Carlism are waning. The Carlists themselves complain that Don Carlos allowed a great opportunity to slip when six weeks ago the country was filled with dismay and indignation at the price of defeat. He might have had a hope of success then, for such a possibility was openly and freely discussed."

Now the enthusiasm of even his ardent admirers is chilled and as the general opinion is that he has little chance, the subject is being dropped, the people realizing that salvation is not to be had that way. At the same time the suspicious entertained in some quarters that Great Britain has been secretly backing the pretender are being dispelled.

"This result is not due to the suppression of Carlism propaganda. On the contrary, the government displays the greatest tolerance, being apparently confident of its own strength. Indeed, there is scarcely enough persecution to keep the Carlism agitation alive. In Madrid nowadays it is difficult to find a single sympathizer with Carlism and no ground exists for the exaggerated statements appearing abroad as to the imminence of civil war and anarchy."

FRAUD CHARGED

Managers of the American Investors' Company Arrested.

New York, Jan. 31.—G. Percival Stewart and D. J. Pierce, managers of 'the American Investors' company, with offices in this city, were arrested yesterday upon bench warrants issued by the United States district court for the northern district of Arkansas, charging them with using the mails for fraudulent purposes. The prisoners were arraigned before United States Commissioner Alexander and were paroled in custody of their counsel until today.

The complaint alleges that the American Investors' company is agent of a pretended society called the Fort Smith Rent-Purchase fund and has used the mails for the purpose of defrauding certain persons. The alleged scheme of the company was to get money for shares in the rent fund which were alleged to include a plot of ground at Fort Smith. It is alleged that these pledges were not lived up to. The American Investors' company has its main office in Providence, with branches in this city, Boston, Philadelphia and San Francisco.

CHINESE THRONE

Dowager Empress Said to Have Selected the Emperor's Successor.

Pekin, Jan. 31.—The Chinese here say the dowager empress has decided upon a policy regarding the successor to the throne. It is detailed that at a meeting of her relatives, recently held, she selected the successor of the present emperor, but the identity of the person so selected is not divulged. All reports, however, agree that a change at the palace is impending.

The emperor is strictly guarded in the southwest corner of the Island palace. The drawbridge connecting the island with the shore is drawn up at night, and every morning the ice around the island is broken in order to prevent unauthorized persons from approaching it. It is asserted that the dowager empress now practically ignores the grand council of state and the Tsung-Li-Yamen, or Chinese foreign office.

FOUGHT A DUEL

Desperate Encounter Between Two Kentucky Farmers With Knives.

Ballardsville, Ky., Jan. 31.—Whittaker Mann and Howard Harland, farmers, fought a duel with barlow knives in a blacksmith shop here yesterday to settle a quarrel, which grew out of the sale of some tobacco. The men fought until exhausted, then rested a while and resumed their battle, which resulted in Mann being so badly wounded that he died, while Harland is thought to be fatally hurt. They lived in adjoining farms and were both men of family, with the reputation of being peaceable residents.

MYRON REED

Well Known Minister Dies at Denver After a Long Illness.

Denver, Jan. 31.—Rev. Myron W. Reed, pastor of the Broadway temple, died at the St. Joseph hospital here yesterday. Mr. Reed had been sick for some time, due to a general breakdown of the system. During his life he filled pulpits at Milwaukee and Indianapolis. In 1882 he was the Peoples' party candidate for congress. He was at one time commander of the department of Colorado G. A. R.

DREYFUS CASE

Whole Truth May Come Out In the Chamber of Deputies.

Paris, Jan. 31.—The chamber of deputies yesterday, by a vote of 346 to 189, adopted the government's proposal to submit to a special committee entrusted with such matters, the bill providing that cases of trial revisions shall be brought before the united sections of the court of cassation.

The committee met after the chamber had adjourned and M. Mazaus' report was communicated to it. Messrs. Poincaré and Bourgeois are organizing the opposition to the government's bill. It appears that Messieurs Loew, Bard and Manau refused to appear before M. Mazaus' committee and they will probably be summoned before the committee of the chamber. If asked to justify their conduct they may be compelled to produce the secret evidence they received. In that event the whole truth will come out in the chamber of deputies.

Nominated For United States Senator.

Madison, Wis., Jan. 31.—The senatorial deadlock was broken last night. Joseph V. Quarles of Milwaukee was nominated in the Republican caucus to succeed John L. Mitchell, whose term expires on March 4.

MOTHER!

There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it.

Mother's Friend

It assists nature in the change taking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

The tendency of legislation is too much along special lines and for the benefit of certain lines of business or classes of people, neglecting the common interest of all. The interests of the whole people should be considered before the interests of any class is acted upon.

The reply of Congressman Landis to Congressman Johnson, who never speaks any more without maligning some one, will be read with pleasure in Indiana. Mr. Landis is already deservedly popular in the state and this recent reply to the lightning talker from Richmond will make him still more so.

The Evansville Journal in speaking of the educational controversy ends an editorial by saying that if the colleges of the state "cannot graduate men and women able to pass examination for teachers' certificates they ought to shut up shop and go into some other business." This is very true and should apply to graduates of the State Normal as well as to other institutions.

When the question as to the reorganization of the state board of education came up in the senate last week the state school lobby which was on hands went to individual senators and threatened to defeat other important measures pending if the presidents of the state schools were removed from the state board. It is now said that because certain senators voted contrary to the wishes of the state school lobby, that the bills in which such senators are specially interested are marked for defeat.

SENATOR LAMBERT'S bill to "establish an institution for the incurable insane of the state is one that is attracting a great deal of attention. All agree that these unfortunates, who are now scattered over the state in poor houses and in the insane hospitals, should be provided for, but the manner of providing for them is where difference of opinion arises. Some are of the opinion that new and separate additions to the insane hospitals should be built for the incurables while others believe an altogether new institution should be established for them. Which of these plans would the better meet these conditions we do not know, but at first thought it seems to us that a new institution, built and equipped specially to care for incurables, would meet the demands better, and at once do credit to our great state.

QUARRELS in the United States senate will be an every day occurrence after March 4, for last night the republican legislators of Wisconsin gave the caucus nomination to Joseph Very Quarles for United States Senator.

The small pox quarantine at Indianapolis will do a good thing for the state if it disperses those professional lobbyists [about the legislature and starts them to their homes. Some localities are already discussing the advisability of quaitining against the home coming of those who have spent so much time giving advice to the representatives and senators, fearing that they have been exposed to smallpox themselves.

The Gold That Glitters.

DO RICHES MAKE HAPPINESS, OR DOES HEALTH MAKE WEALTH?

The richest man cannot always be said to be the most successful, for true success is not possible without happiness. Many a wealthy man would give all he now possesses to have the health and happiness of a young athlete. Health is not hard to get and keep if good judgment is used in caring for and supplying the needs of the system. Nature often needs assistance; you sometimes abuse nature by overtaxing your nerves, your brain, or your body, and you haven't time to relax, and take the rest that you need. You must have outside help. Pabst Malt Extract, The "Best" Tonic, will supply the extra fuel, food, and strength; it is absolutely pure—an unequalled assistant to nature in giving health, vitality and strength. It will make you eat and sleep well, and cause you to feel like yourself again, or perhaps, better than you ever felt in your life. The "Best" Tonic was awarded the 100 points of perfection at the World's Fair, and was the only Malt Extract which received that honor. Your nearest druggists carry Pabst Malt Extract, The "Best" Tonic in stock.

William Black's Characters.

Sir Wemyss Reid notes that William Black seldom allowed himself to be drawn into conversation about his work.

One of Reid's recollections runs thus: "One day, in the faroff past, I was walking along the sea front with Black, at Brighton, when he said abruptly and with reference to nothing that had been passing between us: 'We are not all engaged in running away with other men's wives. There are some of us who are not the victims of mental disease or moral deformity. I do not even know that anybody of my acquaintance has committed a murder or a forgery. Yet people are angry with me because I do not make my characters in my books odious in this fashion. I prefer to write about sane people and honest people, and I imagine that they are, after all, in a majority in the world.'"

Some Went to Glory.

I once asked a district nurse, says a writer in The Cornhill Magazine, how the various sick cases had been going on during my absence from the parish. At once the look which I knew so well crossed her face, but her natural professional pride strove for the mastery with the due unconsciousness which she considered necessary for the occasion. At last she evolved the following strange mixture. "Middling well, sir; some of 'em's gone straight to glory, but I am glad to say others are nicely on the mend."

Starting Him Right.

"Ah!" sighed the sentimental youth. "Would that I might install a sentiment in your loyal heart!"

"Sir," interrupted the practical maid, "I'd have you understand that my heart is no installment concern."—Chicago News.

Laying a Ghost in Siberia.

Mr. George Kennan tells a Siberian ghost story in St. Nicholas. After describing the first visitation of the mysterious ghost (it afterward proved to be a half starved dog) Mr. Kennan says: For two or three days after this, Yegor took refuge at night in the house of a neighboring friend and left me to tackle the ghost alone, but neither in the garret nor in the kitchen did I hear the faintest sound to indicate that the mysterious somebody who walked in darkness and left no tracks was abroad. Meantime, however, the news that a ghost had appeared to Yegor in the barin's kitchen, and that even the skeptical barin himself had heard the "unclean spirit" pacing the floor of the garret at midnight, spread to every house in the village, and the next Sunday afternoon who should appear at my door but a Russian priest, dressed in all his robes and followed by one of the church choir boys, with a basin of water and a small bundle of long, flexible twigs.

The reverend father came in swinging a smoking censor and reciting sonorously a selection from the old Slavonic psalter. He marched solemnly around the entry, the kitchen and the sitting room, fumigating every nook and corner where a ghost might lurk, and then took the basin and the brush of twigs and sprinkled the whole house with water after the manner of the Greek church. Having thus performed his official duty, he greeted me courteously, apologized for the intrusion and said that it was his custom to conduct a ceremony of that kind once a year in every house in the village. I was not, of course, a member of his church. But he had taken the liberty, he said, of coming to my house because there were reports in circulation that mysterious noises had been heard in it, and the minds of his parishioners were disturbed.

ISOTHERMS.

Here are some definitions of isotherms that appear in American textbooks of geography: "Those lines which are drawn through places with an equal average of temperature are called isotherms."

"Isotherms are lines connecting places having the same mean temperature for particular periods, as the whole of the year, the winter or summer months, etc."

"If upon a map all places having the same mean temperature are connected by lines, such lines are called isothermal lines or simple isotherms."

These definitions are part of the truth, but not the whole of it. It may not be a great calamity, but the fact is that most boys and girls leave school with a misconception as to what an isotherm is, and they rarely find out in later years.

They all know that two elements, latitude and altitude, are the main factors in determining the mean temperature of a place; that the farther a place is from the equator and the higher it stands above sea level the cooler its climate is. But they do not know that isothermic maps take into account only one of these elements, and that is latitude. They eliminate the influence of altitude. The isotherm passing over the top of Pike's peak does not show the mean temperature at the summit of the mountain, but what the mean temperature would be in that immediate neighborhood if the land, instead of rising high above the sea, stood at the level of Coney Island.

Do you see the reason for this? It may be easily explained. Most of the land does not rise so high above the sea that the temperature is greatly affected by altitude. To the majority of mankind altitude is a far more important climatic element than latitude. Now, the effects on temperature of both latitude and altitude cannot well be shown on one map, and isothermic maps were devised to show the effects of latitude and some other element, such as position near the sea or in the far interior.

An isothermic line, therefore, does not show the actual mean temperature of a place on it unless that place is at sea level. But it is easy to deduce from the isotherm the actual mean temperature of a place, if we know its elevation above the sea. How this is done is very clearly explained by Dr. H. R. Mill, the British geographer, as follows:

"The air grows cooler by 1 degree F. for every 270 feet of elevation above sea level, but isothermic lines show the sea level temperature. In using isothermic maps we must therefore remember that places 600 feet above the sea level have a temperature 2 degrees lower than the isotherms indicate; places 6,000 feet above the sea, 22 degrees lower; those 12,000 feet above the sea, 45 degrees lower, and the mountain slopes 18,000 feet above the sea no less than 66 degrees lower than the sea level temperature shown by the isotherms. This accounts for the fact that none of the important towns in the temperate zones is situated more than 2,000 feet above the sea, while in the tropics they are built at as great elevations as 8,000 or 10,000 feet."

Weather charts are an exception to this rule. They record the actual thermometrical readings at the points of observation.—New York Sun.

The skins of animals were the earliest forms of money. Sheep and oxen among the old Romans took the place of money.

WHOOPING COUGH

One of the most distressing sights, is to see a child almost choking with the dreadful whooping-cough. Give the child Dr. Bull's Cough Syrup, the greatest pulmonary remedy, and relief will come at once, the coughing spells will re-occur less frequently, and, in a few days, the sufferer will be entirely cured. No other remedy can boast of so many cures.

Oscar G. Murray who is one of the receivers for the B. & O. said yesterday that the receivership on the road would be closed by July 1. When asked when the B. & O. S. W. would be taken out of the hands of the receivers he said: "I cannot tell you are getting in too deep water for me."

Lung Infection
Is the forerunner to consumption. L. L. Bell's Pine-Tar-Honey will cure it, and give strength to the lungs that a cough or cold will not settle there twenty-five cents at all good druggist.

Grippe Successfully Treated.
"I have just recovered from this second attack of a gripe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" For sale by C. W. Milhous.

The Ravage of the Grip.
That modern scourge, the Grip, poisons the air with its fatal germs, so that no home is safe from its ravages, but multitudes have found a sure protection against this dangerous malady in Dr. King's New Discovery. When you feel a soreness in your bones and muscles, have chills and fever, with sore throat, pain in the back of the head, catarrhal symptoms and a stubborn cough you may know you have the Grip, and that you need Dr. King's New Discovery. It will promptly cure the worst cough, heal the inflamed membranes, kill the disease germs and prevent the dreaded after effects of the malady. Price 50 cents and \$1.00. Money back if not cured. A trial bottle free at W. F. Peter's drug store.

A SPELL OF WEATHER.
The Past Three Days Have Brought a Good Business to the Coal Dealers.
"Is it cold enough for you?" is a common expression today. In fact the same question has been asked over and over since Sunday morning, when the mercury marked three degrees below zero. Monday morning it was not quite so cold, the thermometer registered only eight degrees above zero. Last night, however, there was another downward tendency of the mercury and this morning it was three degrees below zero again. The bulletin today is for a rising temperature tomorrow, so that quite a change in the weather may come to pass before "ground hog day."

In Olden Times
People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system. Buy the genuine, made by the California Fig Syrup Co.

Mrs. Sarah Helck, who has been visiting her father, Christian Frey, returned to Louisville today.

DIED.
Mrs. Louise Lunte, wife of Christian Lunte, died at the family home two miles east of Seymour, at 3:30 o'clock Tuesday morning, of pneumonia, after a brief illness, age 73. Mrs. Lunte with her husband came from Germany and settled in this county in 1855, soon after they were married. To them were born five children, Charles, and Mrs. Lizzie Fill, of Cameron, Mo., Mrs. Emma Buhner, of Washington, Henry, who resides on Louis Schneck's farm near the city, and Edward, who has charge of the home farm. For many years Mrs. Lunte was a faithful member of the German M. E. church from which the funeral will take place at 2:30 Thursday afternoon. Burial at River-view. The bereaved relatives have the sympathy of a large circle of friends.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Who is to Blame?

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys.

If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, and it is yet afflicted with bed wetting, depend upon it, the CAUSE of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

If the adult has rheumatism; pain or dull ache in the back; if the water passes in irregular quantities; or at irregular intervals or has a bad odor; if it stains the linen or vessel the color of rust; if the feet swell; if there are puffy or dark circles under the eyes; your kidneys are the cause and need doctoring. Treatment of some diseases may be delayed without danger, not so with kidney disease.

Dr. Kilmer's Swamp Root, the great kidney, liver and bladder remedy, promptly cures the most distressing cases. Its mild and extraordinary effect is soon realized. Sold by druggists in fifty-cent and dollar sizes. You may have a sample bottle and pamphlet telling all about it sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention that you read this generous offer in the SEYMOUR REPUBLICAN.

A Common Danger.

Two Bills Revived

The Antilynching and the Injunction Without Bond Measures.

INDIANA STATE MILITARY

Bill Proposed to Reorganize the National Guard on Lines Recommended by Military Authorities - Two Men Killed in an Explosion - Fatally Injured in a Crossing Accident.

Indianapolis, Jan. 31.—The legislature accomplished little yesterday beyond routine work. The smallpox scare has taken such thorough hold upon the members that a bill was passed by both houses under suspension of the rules, giving the custodian of the capitol and his employees constabulary powers to eject all undesirable persons from the building.

Notwithstanding the defeat of the antilynching bill by the house last week, another measure drawn by the attorney general, has been introduced into the house by Mr. Noel.

The other bill was defeated largely because the county in which a lynching occurred was made liable for damages to the family of the victim. This bill omits that, but fixes severe penalties for all people directly or indirectly connected with a lynching or any form of mob violence and permits prosecution in such cases upon affidavit of the attorney general.

Another measure killed over a week ago was revived yesterday when Senator Hubbell introduced a bill permitting the state to demand an injunction without giving bond. This is in order to prevent the waste of natural gas.

Senator Gilbert introduced three important militia bills. One is to reimburse the Indiana volunteers for the money they paid the state for their uniforms. Another divides the state into military districts and reorganizes the state militia upon lines recommended by the best military authorities, and the third appropriates \$100,000 per year for the maintenance of the militia.

The senate passed bills regulating the business of express companies, for the protection of fish and to prevent the pollution of streams, and for the prevention of the San Jose scale and creating the office of state entomologist.

The senate devoted the whole afternoon to a memorial service for the dead heroes of the Spanish war. The chamber was elaborately decorated with flags and stands of arms. Excellent music was furnished by the Apollo quartette, and brief addresses were made by Senators Agnew, Winfield, Hubbell, Gilbert, Stillwell, Ball and Drummond. Those of Senators Drummond and Gilbert were particularly eloquent.

Treatment of some diseases may be delayed without danger, not so with kidney disease.

Dr. Kilmer's Swamp Root, the great kidney, liver and bladder remedy, promptly cures the most distressing cases. Its mild and extraordinary effect is soon realized. Sold by druggists in fifty-cent and dollar sizes. You may have a sample bottle and pamphlet telling all about it sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention that you read this generous offer in the SEYMOUR REPUBLICAN.

A Common Danger.
If you ever had a cold which you permitted to "wear away" it may interest you to know it was a dangerous proceeding. Every cold and cough which is neglected paves the way for consumption, bronchitis, asthma or catarrh. Otto's Cure, the famous German throat and lung remedy, will cure any cough or cold and save you from consumption. Sold by all druggists. Prices 25c and 50c per bottle.

To the Public.
We are authorized to guarantee every bottle of Chamberlain's Cough Remedy to be as represented and if not satisfactory after two thirds of the contents have been used, we'll refund the money to the purchaser. There is a better medicine made for la grippe, colds and whooping cough. Price, 25c and 50c per bottle. Try it. C. W. Milhous.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" economic, and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

Railroad Fares are Reasonable. Legislatures in different States are from time to time urged to tinker with passenger tariffs on railways and enact a law compelling a general charge of two cents per mile. The current rate is three cents, but the average falls below that owing to concessions granted for special occasions. Persons who appreciate the convenience and comfort provided by the railways will not consider a three-cent fare exorbitant. The present charge for a twenty mile ride on a railway will not pay for horse hire for such a trip, to say nothing of the time required for an overland journey and the discomforts of muddy roads and inclement weather.

TRY ALLEN'S FOOT-EASE.
